2018

KING OF OIL & GAS

In 2008, the **OIL & GAS INDUSTRY'S SAFETY COMMITTEE**, representing **EXXONMOBIL, CONOCOPHILLIPS, CHEVRON**, and many other respected industry leaders, **PUT A CALL-TO-ACTION** to the industrial supplier market asking them to **SOLVE A LINGERING PROBLEM** in their industry – **HAND SAFETY**. This is one last piece of PPE for the oil platform workers. Eye, head, back and feet safety had been addressed, but **HAND INJURIES WERE PREVALENT AND REPRESENTED 71% OF ALL INJURIES IN THE FIELD**. The key injuries were bruising blows, pinched fingers and fractures. They realized that something needed to be done to protect their employees' hands. These injuries were also costing a considerable amount of money and lost productivity. Ironclad Performance Wear answered this call to action in cooperation with the Oil and Gas Safety Committee. The result is the **KONG® GLOVE** which is the benchmark for this industry's hand protection program. The relationships that we have with key safety managers and executives in the industry keeps us in the trenches and on the front line. Our **KONG®** collection is expanding as the demands of the industry change. The all new **KONG®** collection is a testament to our ability to meet the needs of the Oil and Gas Industry. Today, more than **3,000,000 HANDS** are protected with **KONG®** gloves.

CUSTOM SIZING GUIDE

- PLACE YOUR HAND DIRECTLY ON THE CHART BELOW TO FIND YOUR SIZE
- MAKE SURE TO PAY ATTENTION TO ALIGNMENT WHEN MEASURING
- THIS WILL ENSURE YOU PURCHASE THE CORRECT FITTING GLOVE

1 PLACE YOUR RIGHT HAND FLAT ON THE CHART BELOW:
Align saddle of index finger and thumb at the **X**

2 MEASURE THE WIDTH OF YOUR HAND:
With your hand on the chart choose the sizing bar that sits closest to the **edge** of your right hand.
