

NEW ARRIVAL

INTRODUCING OUR NEW SELF-DRILLING SCREWS

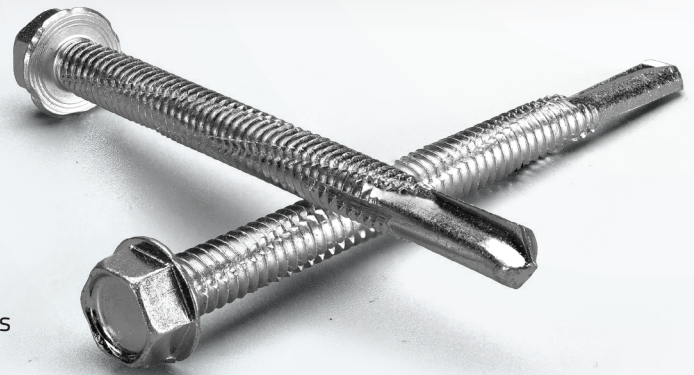

FEATURING #5 DRILL POINT

BUILT TO DRILL. BUILT TO HOLD.

**MAXIMUM TORQUE. FASTER DRIVE.
BUILT FOR PRECISION AND STRENGTH.**

The new Proferred® #5 Point Indent Hex Washer Head (HWH) Unslotted Self-Drilling Screws with Zinc Cr+3 coating are engineered with a powerful #5 drill point that penetrates up to 1/2" thick metal, eliminating pre-drilling and speeding installation of metal studs, track, and ductwork. The RoHS-compliant Zinc Cr+3 finish provides dependable corrosion resistance. Ideal for metal framing contractors, HVAC installers, fabrication shops, and large-scale commercial projects where performance and efficiency matter.

SIZE OFFERED:

- #12-24 X 1 1/4" (BBI# 693181)
- #12-24 X 1 1/2" (BBI# 693182)
